

The 3-in-1
versatap[™]

THE KITCHEN MIXER
THAT THINKS
IT'S A KETTLE

Model SC52E

versatap™

NOT ONLY A
KITCHEN MIXER BUT
ALSO YOUR KETTLE

- Sink Mixer
- Near Boiling Filtered Drinking Water
- Cool Filtered Drinking Water
- High Flow American Filtration
- Family Friendly safety lock

Model SC52E

The VERSATAP Sink Mixer; Ideal for hands and dishes...

...and perfect for piping hot tea,
coffee, soups, blanching vegetables,
food preparation and countless
other uses in your kitchen
PLUS unlimited cool filtered
drinking water!

versatap™

MUCH MORE THAN A MIXER

**Stylish,
Versatile and
Simple to
Install**

SO CONVENIENT...

- Up to 60 cups per hour of steaming hot drinking water, integrated into the sink mixer.
- Unlimited cool filtered drinking water.
- Electronic temperature adjustment with Easy-to-read LCD screen.
- Easy-change filters with easy-access shut-off valve.
- High capacity filter ensures great water flow.

SO SAFE...

- Your family is protected by a safety-function to prevent accidental burns.
- Distinctive boiling water operation prevents confusion with standard sink mixer functions.
- Cool-touch spout is safe to touch.

SO EFFICIENT...

- Uses less energy than a household light bulb – cheaper than boiling a standard kettle.
- Insulated stainless steel tank keeps water hotter for longer.
- American-made filtration ensures great tasting water on tap instantly.

INSTALLATION REQUIREMENTS

Water Supply: Your Schwan appliance must be connected to standard 15mm male cold and hot water supplies with isolating valves.

Electrical: A standard 10 amp, 3-pin power point is required in the cupboard.

Dispenser Mounting: The top-mounted dispenser is easily installed through a standard 35mm hole.

Drip Tray: As your Schwan appliance is always full of water, we recommend a drained drip tray be used in those applications where any leakage could cause property damage.

Warranty: Two-year repair or replacement warranty for residential installations. One-year repair or replacement warranty for commercial installations (maximum 6 staff).

Certifications: Schwan hot drinking water appliances have been laboratory tested and certified to comply with AS/NZS 60335.1 and AS/NZS 60335.2.15 standards.

SCHWAN[®]

DRINKING WATER SYSTEMS

The ultimate convenience in
your kitchen.

Schwan

Schwan is changing lives with each installation. This specialist tapware range includes high quality products endowed with latest technologies. The Schwan Versatap leads the pack with its ability to provide cool filtered or piping hot water in an instant.
